## Nessie – the Loch Ness Monster

Nessie. Where to begin? Scotland, I suppose. In the Scottish highlands, near Inverness lies the 2<sup>nd</sup> largest lake in Scotland, known as 'Ness'. (Loch means lake.) Most famous for sightings of 'Nessie', a monster. With sightings as early as the 6<sup>th</sup> century, most likely taken from earlier stories of the water horse. (water horse: [http://en.wikipedia.org/wiki/Water\\_Horse](http://en.wikipedia.org/wiki/Water_Horse) ) For more information on Nessie, visit <http://amazingdata.com/in-search-of-the-mysterious-sea-serpent>, and <http://www.nessie.co.uk>

This is Eilan Donan Castle on Loch Duich, one of the pictures I love of Scotland and part of the inspiration for the colors.

Images of the fog and mist shrouding the hillside left me with blacks and olive greens with hints of blue.

These are other pictures of Scotland. Enjoy!
